Surat, Gujarat, India

As full-stack developer I have pursued internship and learnt really good technologies throughout the process. By building many projects I have gained important experience related to development and made my base strong. While working on it, I got practical knowledge of both frontend and backend as well as system design and devops concepts.

SKILLS

- **Front-End:** HTML, CSS, JavaScript. TypeScript
- **Back-End:** NodeJS, Python, PHP, Express, REST & GraphQL APIs, Web-Sockets
- **Tools:** Git, JWT, Socket.IO, Docker
- **Frameworks:** ReactJS, NextJS, TailwindCSS, Bootstrap
- **Databases:** SQL & NoSQL : MongoDB, PostgreSQL, MySql, OracleDB

EXPERIENCE

SOFTWARE DEVELOPER INTERN ↗

AzzipTech | Bhavnagar, Gujarat, India

JANUARY 2024 – APRIL 2024

During my three-month internship, I worked with web development projects and gained hands-on experience with React, Node.js, and MySQL while working on them. I faced and solved many problems while working with office colleagues.

PROJECTS

EASE ERP SOLUTIONS

- Tech Stack: NextJS, MongoDB, TailwindCSS | RazorpayX, uploadthing, Chartjs, NextUI
- This is Enterprise Resource Planning software. This includes modules such as attendance, payroll, inventory, E-commerce, CRM, etc. It includes dashboards for employees, administrators, human resources, finance, inventory, and general departments. Customers are verified via Google with next-auth.

DINEFLOW RMS

- Tech Stack: NodeJS, ReactJS, MySql, Bootstrap, CSS | Firebase Auth
- This Restaurant Management System makes restaurant's processes digital. Customers can reserve tables and even order food when they arrive at the restaurant. It also has manager, chef, waiter, and admin roles for employees. It creates invoices, collects feedback, manages records, and manages customers, menus, and table reservations.

AND MANY MORE WITH ADVANCE CONSEPTS - ON MY GITHUB
